Communication was brought up again with parents and also safety in the schools. They would like to know what our schools do for lock downs. I discussed the goals we had last year for our PAC which included communication, safety, website updates, signage in schools. We will be adding a report from our LIEC and Leadership mtgs. We talked about what sort of events parents would be interested in this year. Parents came up with having a story telling event, Zumba class, Language table, Narcan training, bullying, sex trafficking, Fire safety. Thought maybe we could do a fair with a lot of our community resources.

We will look at our school website next PAC meeting and go through to make sure parents know where to find everything. I will also show them how to use JMC parent portal. We will plan some events for Dec- Feb.
